American & Foreign Patents.

E. H. ELDER,

SOLICITOR OF PATENTS.

Late Agent of the U S Patent Office, Washington, (under the act of 1837.)

76 State Street, opposite Kilby Street, BOSTON.

AFTER an extensive practice of upwards of twenty years, such as to secure Patents in the United States, also in Great Britain, France, and other foreign countries Caveats, Specifications, Bonds, Assignments, and all Papers in Drawing for Patents, executed on Reasonable Terms, and with Dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters concerning the same. Copies of the claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The agency is not only the largest in New England, but through it inventors have advantages for securing Patents of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is more soundly established by a longer subscriber, and we succeed in the majority of cases in procuring Patents, we should add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The intelligence of the subscriber, during twenty years past, has enabled him to accumulate a vast fund of information and official decisions relative to patents.

These, too, he has extensive library of legal and mechanical works, also full specifications of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the consequent delay there, are here saved inventors.

TESTIMONIALS

"I regard Mr. Elder as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of obtaining their applications in a form to secure for them an early and favorable consideration at the Patent Office"
EDWARD SCHAFF
Late Commissioner of Patents.

"Mr. E. H. Elder has made for me THIRTEEN applications, on all but one of which patents have been granted, and that a new product. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to employ him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the ensuing, in course of his large practice, made on twice preceded applications, SEVENTEEN PATENTS, EVERY ONE of which was decided in his favor by the Commissioner of Patents.

### A Secessionist well Met.

Among the best speeches made in reply to F O. J Smith, was that of Mr Brad ury of Springfield, in this county. We think few extracts, which have the true ring of unconditional loyalty, and of unmitigated hatred and contempt for Northern treason and traitors—men who, while they see unconstitutionality or an invasion of personal rights in every movement of the Government against the rebels, can see nothing worthy of our great condemnation in the assaults upon the Constitution and the Government itself. With them our own Government is never right—the rebels always wrong

Mr Bradbury said—

The gentleman (Mr Smith of Westbrook) claims to occupy an independent position between the two great parties—to stand upon neutral or middle ground—and claims the right to give advice and of being heard from that fact We read in the Good Book that the Devil himself once claimed to be an angel of Light, and came near deceiving the very elect, our fortunate for us, and for our country, not only the hoofs but the horns also of this Leader are visible, and it is only those who are wilfully blind that can be deceived by such appearances He claims to stand upon neutral ground forsooth—in the name of all the gods he sees, I would ask, what thing is there his master Jeff Davis would have had him say, which he did not utter in that seven hours speech? I will not occupying middle ground! Why, he out-Herods Herod, and beats Vallandigham at his own game

Who wonders Southerners pronounce cowards and poltroons when such men as the gentleman from Westbrook cringe and supplicate on their very knees at the firebrand of the plantation whip, and propose concessions to treat with rebels, while yet their hapgnees drip with the blood of our citizens Mr Speaker, I admire a chivalrous spirit—I love a noble high minded man, but of all the vermin that prawl on God's earth, I despise most the man who can kneel to me readily at such a mandate—who can even lift his fratricidal hand against the life of his own Government, at the first sound of the driver's whip, dripping it may be, with blood from the quivering back of some poor slave mother Gentlemen will allow me to quest on their taste in the choice of a master! There are certain qualities of character that good men have always admired in the world and there are certain others that have always been despised—Southern aristocrats possess many of the latter as the world well knows but the c claims to the former are certainly very vague and uncertain Why, sir, we are told that he Amoeran party for a series of years has resulted that slavery must go into no more new territory; but says the gentleman, when we found the South were opposed to the idea, and threatened to act boldly, we immediately abandoned the principle In other words, the great men Believed with his party, that slavery was a curse to new territory, and they made it a part of their platform to prevent its further extension, but when they found their negro driving friends objected, they let their principles go by the board Is it strange that the slaveholde , who keeps his slave to do his bidding, should declare, at the same time that he was the Northern freeman who comes and goes at the direction of

The gentleman speaks of public sentiment in this connection, deprecating it as among the causes of this war—and here I have a word to say

There has existed in one part of our dominion since first we became a nation, an institution, he barous and inhuman in itself—opposed to the highest interests of the race a system of unrequited, cupped labor—a libel upon our Bill of Rights, and only morally tolerated by our Constitution It is a well conceded fact that at the time of the adoption o our Constitution, it was expected and fully be lieved that the institution would not extend beyond the limits it then occupied, but that it would gradually die out as it then had in the more northern States But the Cotton Gin was invented, and new labor became of greatest importance The number of slaves increased, and their price advanced in the market Human flesh and blood became of much worth in the Southern sections Men, women, and little children into whose nostrils God himself had breathed the breath of life, thus making them living souls and for whose salvation from sin and death His son suffered the ignominious death of the cross, commanded an advanced price upon the auction block *Humanity trod down, and human beings went up* in the price current! The blood, the muscles, the sinews of God's immortal creation stood at a premium, while morality and religion kicked the beam! The most ution began to feel its own power It soon became an element of strength in the Government of the Southern States—the wire-driver was recognized as a power in society—and sprung from a local, State institution, drawing its life and its living entirely *from* local law—crept gradually but surely into the Halls of Congress; and then came its first demand for more territory—and *right here*, Mr. Speaker, lies the cause of the present rebellion Had not Congress responded to its demands by a prompt denial—saying to the Aldreds, movements upon the sly, and this curse of the race throughout the world—"thou art a creature of State law merely—my Constitution recognizes you as a simply a State institution—thou hast no place in the Union, and ought no to presume yourself here at all"—then we would never have been cursed as we have been by the evils which flow from this Pandora's box. But alas, it was not so met. Slight concessions gave it courage It put on a bolder front and asked for more favors. Unfortunately they were granted. It then assumed other and stronger forms, and claimed more privileges It became rich and strong—a mighty power in the land, and commenced putting on a haughty, imperious air even upon the floor of Congress *Being Dictator at home, it claimed that right abroad*—when opposition was made to its course, and it failed in proper, legitimate argument, the bowie knife and revolver were always at hand to enforce its demands, until from professing itself at the door of Congress without even claiming the right of admission—but beg ing even to open the writings of simple *opposition* within—it came to claim *rights there*, and demanded in imperious tones that they be heard! It allied itself to the great Democratic party of the nation, and ultimately gained possession of the Government, and the conquest of the position was fully consummated in the election of Buchanan.

Then came the reign of terror! Northern men would and must be nominated on the darkest slaveholding ti ket We

After the Convention had separated, a resolve was passed appointing the Treasurer elect, (Mr. Paine) Collector of Taxes

☞ Among the recent deaths of Maine soldiers at Washington hospitals, is that of P Murphy, Co K, 1st Maine artillery

☞ According to the report of the Scientific Survey, the metals that may be obtained in Maine, are iron, lead, zinc, copper, tin, manganese and gold

☞ In the State Senate on Friday afternoon an order of inquiry was called up and a bill introduced to pay a bounty of $100 to each soldier drafted under the conscription act

Among the bills indefinitely postponed was that creating trial justices on a large scale, that exempting Quakers from military duty, resolve providing for the sale of the public lands, bill relating to a depository of wills and testaments, bill explanatory of the liquor law of 1858, bill relating to attachments of liquors

In the House on Saturday afternoon the bill for the establishment of two Normal Schools (for the education of teachers) was passed to be engrossed yeas 64 nays 29 It donates four half townships of land Also the act extending the Aroostook Rail road charter

Mr Stetson of Bangor, laid on the table a resolve in regard to the armament of the forts of the United States lying within the State of Maine

☞ The men of the 9th Maine captured in a late raid on our pick ts at Hilton Head, are Sergeant S L Sidley, Co B, of Georgetown, Joseph A Harmon, Co K, of Scarboro, Lot Cannel, Co K, of Gorham, Leonard Baker, Co K, of Norridgewock, and Jonas Chandler, Co K, of Phillips

LUBRICATING OIL We have tried McGregor's lubricating oil for machinery, and find it a first rate article fully equal to the best sperm Machinery upon which this oil is used does not become gummed, consequently it requires much less power to move it Another great inducement is, that it is much cheaper than other oils, and spends well Machinists will do well to try it

NEW STORE Mr Silas S Drew, No 52 Main Street, has just opened a large and well selected stock of Dry Goods, which he is prepared to dispose of for cash at good bargains

☞ Another great Union meeting has been held in Waterville Union leagues are being organized all over the State

☞ The Belfast Journal is the most bitter possible of papers against the government By its side the Richmond Examiner is conservative

*—Lewiston Journal*

THE TOWN ELECTIONS IN MAINE still continue to come in overwhelmingly for the Union cause They now foot up 168 Union towns to 89 Democratic. In the face of these facts the copperhead journals are brazen *faced* enough to claim a great revolution in Maine against the government

MORE COUNTERFEITS We learn that counterfeit 25 cent checks (government) are now in circulation, and quite plenty

☞ The Lewiston Journal says the difficulties in the way of carrying out the proposition to allow soldiers to vote, are so great that the resolve will probably fail to secure a passage thro' our Legislature

THE AGRICULTURAL COLLEGE On Friday the House, after a discussion of nearly the entire day, refused to concur with the Senate in attaching the Agricultural College to Waterville College, by the decided vote of 25 to 86 A resolve simply accepting the grant then passed to be engrossed The Senate will concur in this action, thus leaving the disposition of the grant to another Legislature

☞ Mr Sloan, the mate of bark Annie E Sherwood, who was recently stabbed by one of the crew, is we are sorry to learn, suffering much exhaustion from his wounds, which commenced bleeding profusely on Thursday last, reducing the unfortunate man to a very critical condition.—*Price Current*

☞ The trial of the "Harvest Moon" came off at Portland on Saturday—the steamer moving round outside Bang's Island and back The Argus says her performance was eminently satisfactory, showing that she will be one of the fastest boats in the country With only 20 lbs of steam (being allowed to carry 45) she made 14 miles an hour Although her engines are very powerful, they are so well adjusted as to cause no unpleasant jar or trembling of the boat

THE NASSAU WRECKERS Captain Staples of the Eastport brig Emily Fisher, captured 17th ult, by the Rebellion, gives a very intelligible account of the affair, which implicates the New Providence wreckers as aiding and assisting the confederate privateers It was through them that the Emily Fisher was betrayed into the grasp of the pirate Captain Staples says the Captain of the Retribution is a man by the name of Locke, who belongs to Calais, Maine. The wreckers took a large part of the cargo (sugar) of the E F, but the Captain gave a bond and extricated his vessel, and arrived at New York on Friday. The Retribution was condemned as unseaworthy by the Nassau authorities American masters should be careful who they trust in those waters.

☞ The Portland Argus says it is reported that work will be resumed on "Wood's Marble Hotel," on Middle Street, this spring, and the stores at least, finished. It is five or six years since any work was done upon the building

☞ Lieut. E E Mayo of the 3d Maine battery, has been recommended by General Berry, chief of artillery, to raise and command a battery of light artillery in this State.

☞ The New Orleans correspondent of the Boston Journal states that after the fight with the Hatteras, the crew of the pirate Alabama were demoralized, and but for the fact that the officers and crew of the Hatteras gave their parole, they might have taken the ship.

THE CONSPIRATORIAL HAIR It appears that the 3500 counterfeits on the Central Bank, Worcester, which appeared in Portland on Thursday, were liberally dispensed in Boston, Cambridge, and other cities, on the same day. The movement was arranged for the same day in all principal cities. The Bleakstone Bank, Boston, Waltham Bank, Chelsea, River Bank, City Bank Cambridge, were issued. The cashier of the Newton Bank seems to have had suspicions that stopped operations in the vicinity of Boston—The operations of the counterfeiters must have been large The raid on the banks seems to have been preconcerted for Thursday

☞ A review of the operations of the New York ice companies, shows that they have secured only about half of their usual supply—No ice has been cut at Baltimore, Philadelphia or Washington

THE SOLDIERS' MONUMENT—*Where Ought it to be Built?* To answer the question properly, we should consider its objects, which are—

First—To show to the father, mother, brother, sister, and dear friends of the soldiers who die in defense of our civil rights, that *these*, the "martyr dead," are not forgotten by the living—and that their names may be most effectually transmitted to and honored by future generations.

Second, That our patriotism, and the patriotism of our descendants, may be enlivened and made more fervid, by being reminded as we look upon the monument, of the sacrifices "even unto death," made by "patriot soldiers," who have given all for their country, and for us

Where, then, should the monument be erected? Manifestly, where all can look upon it with least expense of time and trouble It should be among living men—rather than in the city of the dead. It should be where the laborer, the infirm old man, the poor widow—the lives of whose sons and brothers have been given in their country's cause—may daily look upon it, and feel, as they look, that their fellow citizens have regard and respect for the memory of all such We want it where it will tell the stranger that we value the memory of our "patriot dead" We want it where it shall speak daily to the whole people, of the worth of men who have died for patriotism, and the worth of civil liberty *for* which men have willingly offered up their lives

If, then, it should be in the city, where ought it to be built? There are several good places The new square fronting the Universalist Church would be a very good spot The triangle at the top of Hammond Street hill, owned, I believe, by the Taylor family, would be a good place, and others perhaps better still, could be selected What say the subscribers to the monument fund?

T

In regard to this matter, the Cemetery Board of last year recommended that the monument should be in the care and protection of the city, and therefore they suggest that a spacious site be selected on the reserved grounds of the Pine Grove Cemetery If it is decided to have it in any cemetery, this is perhaps as good a site as could be selected—but our own impressions are decidedly in favor of a commemorative monument in the city itself It is not at all essential that the remains should be interred where the monument stands Indeed, in many cases it will be impossible to send the remains home for sepulture

——The Government revenue from the new internal tax laws will soon amount to all probability, to the full estimate made by Secretary Chase, of $460,000,000 Of course they will not yield that the first year, for the income and other taxes are not yet available "Burleigh" writes from New York to the Boston Journal on this subject as follows

[illegible] letter of the 28th states that the [illegible] the rebel expressed in a former despatch, [illegible] conclusion concluded to let the water on at [illegible] at sundown today. The water is now [illegible] threatening friend and foe alike.—[illegible] is 20 feet wide already, and is visibly widening at the mouth. By morning the [illegible] part of the town at Lake Providence will be submerged.

Cincinnati, 23d.

General Joe Johnson it is expected will take [illegible] command of the rebel army at Tullahoma.

The Mobile Advertiser of the 15th claims that the anticipated attack on Charleston is a feint, and that the next blow will be struck at the Gulf city. It strongly intimates that Mobile is the [illegible] object of attack.

Views from the Yazoo Pass expedition represent that the movements are slow, but there is every prospect of getting through successfully. The Rebels had debarked near Greenwood and were besieging Fort Pemberton. A number of our transports were badly damaged in getting through the Pass.

The ram Lioness overhauled the steamer Sunny with 3000 bales of cotton, on the 10th inst., crowding her so closely that the rebels were compelled to run her ashore and burn her. The rebels burn cotton on every plantation as they advance.

New York, 22d.

The Commercial has a despatch from Washington stating that information has been received by Secretary Welles that Admiral Farragut has safely made the passage by Port Hudson, in the frigate Hartford, his flag ship, and with his whole fleet, the Mississippi only excepted. The last named vessel got aground, and by the Admiral's order was abandoned and destroyed.

Washington 23d.

A letter from Rear Admiral Porter, dated March 14, has been received in which he speaks of the difficulties of navigating the Yazoo Pass with safety to the vessels of the expedition. The natural impediments are represented as similar to those heretofore reported. He says nothing as to any engagement with the enemy up to that date.

Washington, 23d

The army between United States and Liberia is officially promulgated. There is to be perpetual peace and friendship, and reciprocal freedom of commerce between the contracting parties, and they bind themselves to treat each other in the footing of the most favored nations including full protection of persons and property.

Washington, 23d

The following was received here this morning, addressed to Colonel Stager, by steamer to New York, dated at South West Pass, La., March 15, by telegraph from Baton Rouge, March 16:

Commodore Farragut, leading in the Hartford, attacked the Port Hudson batteries last night at 10 o'clock, with his fleet. The steamer Mississippi ran aground and was abandoned and burned.

The firing on both sides was rapid and severe. The army is within five miles of the enemy's works. They are in good spirits, and bound to win.

Cavalry skirmishes have been the only fighting as yet.

## FROM WASHINGTON

Secretary Chase Will not Put a New Loan in the Market at Present.

The Yazoo Expedition Arrives in Tallahatchie River.

The Center of Mississippi Entirely Under our Control.

Washington, 22d.

It having been currently reported that the title of the new quicksilver mining Company of California was finally settled by the recent decision of the Supreme Court of the United States in the Almaden case, it is proper to say that the government holds and claims the title to the property embraced in the decision, to which reference is made. The new quicksilver mining company, it is believed, hold title under the Mexican grant to Justabaroz, which was confirmed by the Supreme Court seven years ago, as was heretofore stated but that confirmation, when the surveys were made under it, left out the richest portion of the mines, which were worked by the Almaden company, and are now decided to be property of the United States—The question as to surveys and boundaries are still in litigation and pending before the Supreme Court, in which the United States and quicksilver mining company are parties. The quicksilver mining company organized under the laws of Pennsylvania and issued $8,000,000 of Stock. The annual earnings of the mines are estimated at about $750,000.

A gentleman recently arrived here from the neighborhood of Charleston, S. C., says it is uncertain when an attack by our forces on any of the southern Atlantic ports may be expected.—Preparations were being made for a heavy demonstration at a point which it may be now prudent to mention. The officers of the navy feel confident of success, but time is necessarily required to perfect all arrangements to secure that end.

The commissioner of Indian affairs, and a satisfactory conference to-day with representatives of the Cheyennes, Bowas, Camanches, Arapahoes, Apaches and Cedos. These Indians are from the Rocky Mountains and near the borders of New Mexico and are scattered several hundred miles.

A delegation of votes is expected this week.—The object of the government is to concentrate them so as to render more safe the routes to the gold mines and Pacific, and to conclude treaties of peace with them.

The eighth census of United States is rapidly approaching completion. The preliminary report, which has been printed, will be followed by volumes on population, agriculture, manufactures, mortality, etc. They are nearly ready for press. Both resolutions at the two Houses the publication is placed under the direction of the Superintendent of the census, who hopes to have the most important portions of the work ready for distribution before the next regular session of Congress.

Rear Admiral Porter, in a despatch says he has received information from Brent Commanding Watson Smith, that on the 7th instant the whole expedition arrived in the Tallahatchie, which gives us control of the heart of Mississippi.

The vessels all got through it fighting condition, except the Petrel, which lost her wheel entirely.

The movement of the fleet evidently alarmed the rebels as they are energetically at work preparing themselves against all contingencies.

There is much distress in Vicksburg. The occupants have no meat, but are living almost exclusively on corn meal.

Mr. Usher, Secretary of the Interior has returned from his visit to Indiana.

Washington, 23d.

The Supreme Court of the District of Columbia—present, Chief Justice Carter and Associates Olin and Wiley. A. I. Meigs of Texas was sworn in as clerk.

Judge Carter addressed the members of the bar of whom a large number were in attendance, saying among other things that this being a new Court new rules and regulations became necessary. The Judge, after consultation was held, agreed to require the oath of loyalty enacted by Congress July last to be taken by all practitioners at that bar. This was to prove any spirit of caprice or doubted the loyalty of the Attorneys. It has been subscribed to by Senators and Judges and no gentleman could decline to take it.

Fortress Monroe, 22d.

The iron clad Keokuk steamed down Hampton Roads at 8 o'clock this afternoon and went to sea. There is nothing new from Yorktown or Suffolk.

New York, 23d.

The World states that on the 9th a small rebel force was separate six miles below Port Hudson, togethher with a signal book of the rebel army.

General Sherman is in command at New Orleans during the absence of General Banks.

Colonel Clark, chief of General Banks' staff, was wounded on the 14th inst, but not seriously.

New York, 23d.

Counterfeit fives on the Bridgeport Bank Co., are in circulation.

New York, 23d.

The Post's special Washington dispatch says that the success of the Expedition [illegible] Yazoo Pass is so great that Mr. Chase will not put a loan on the market at present.

It is rumored to-day that General Heintzelman will take General Somers's place as commander of the Department of Missouri.

New York, 23d.

Steamer Mississippi arrived from New Orleans 11th, via Ship Island, Key West and Hilton Head. She brings a number of the officers of the Harriet Lane and Queen of the West, returning as paroled prisoners.

The prize steamer Peterhoff is still at Key West.

John Lizett of the 4th Massachusetts battery, died on board the Mississippi, and was buried at Key West.

Advices from Barbadoes to the 28th ult, give the announcement that a guano laden ship was burned off that place. Her name was not known.

New York, 23d.

Timothy O Meara, a deserter from the 81st New York regiment, brutally murdered his wife to day—cause unknown. He has been arrested.

New York, 23d

Arrived—Bark Ida, Bay; Scathe, Oporto

San Francisco, 21st.

## Editorial and Other Items.

—Haines's Bluff, of which mention is frequently made, is the continuation of a chain of hills, nine miles from Vicksburg.

—The Harpers consume a thousand reams of printing paper a day in their publishing establishment. That is four hundred and eighty thousand sheets.

—Twenty-five ovens are kept constantly at work in New York and Brooklyn baking pilot bread for the army. They bake from 6,000,000 to 8,000,000 pounds per month.

Few persons have as yet begun to realize how great the revenue is to be from the new tax law. It will be immense. A. T. Stuart's annual tax will be about $20,000. And hundreds of firms will pay from $3000 to $10,000. And then the sums from all classes and conditions will give the government all the money it will need, and then sums are so evenly distributed that the pressure is light and does not disturb any one. All seem to accept the burden with a cheerful spirit, and tell the government to go on.

—A new Atlantic Telegraph company is going on in New York. A big subscription is filling up, and the second trial of spanning the ocean is not likely to fail from want of funds either in England or America. A million and a half is already subscribed.

—The Prince of Wales has a clear capital of three millions of dollars, and a regular income of five hundred and fifty thousand dollars to begin married life with. He can afford to set up house keeping.

—"The Black Brigade." News from Hilton Head states that, instead of being captured as reported, the negro brigade has been peculiarly successful in capturing in Florida, and is still marching on to new successes.

—A new style of dressing ladies' hair, called frizzling it, prevails in New York, and so far as they does it look that gaping crowds stand at the church doors on Sunday to see the women come out. An exchange thinks it would answer if the sweet creatures should leave their hair just as it is when they rise in the morning.

—It is reported that applicants for foreign passports are now required by the State Department to file bonds in the sum of $1,000 each, conditioned that they will respond to the draft or for the conscription law, or will provide substitutes for the military service of the United States.

—In the local elections of Iowa the Union men have swept all before them, carrying many places heretofore Democratic.

—Admiral Porter has fitted up another steam gunboat and set it going down river. The rebels wasted lots of ammunition on it. By-and-by he will send down another genuine one which they won't fire at perhaps.

—The report that the rebels were approaching Fort Donelson, is unfounded. They have got as much of Fort Donelson as they want.

—Although no papers have been officially excluded from the Army of the Potomac, a rule has been adopted, so that in effect the soldiers neither get those of radical Republican or Democratic tendencies, both of which are demoralizing to the troops.—*Bangor Times.*

Will the Bangor Times please to designate a few of the papers which it classes as "radical Republican?" And if the so does not no "radical democratic" papers, will it please to say what it calls the paper published on Central Street in this city.

One Maine Copperhead Gone. The following statement is made in the Boston Herald of Friday last:

The mortifying and successful rebel raid which robbed up some officers and soldiers in General Hunter's department, is attributed to information imparted to the enemy by private Caleb Jones, of the 9th Maine. Jones had lived twelve months at the South, and had several times expressed a desire to go back there. He was a new recruit and undoubtedly availed himself of the first opportunity to achieve what he designed to enlist us—namely, desertion to the enemy.

This Caleb Jones is entered in the Adjutant General's Report as a recruit belonging in Brighton, Somerset county, and mustered in Sept. 29th, 1862, he was then 44 years of age.

FOR SALE,

At a Bargain!

THE SUBSCRIBER wishes to dispose of his valuable FARM, which he will sell at a great bargain. Said Farm is situated in Hampden, on the main Road to Frankfort, 4½ miles from Bangor, and has a short distance from two Churches, a Academy, Grist Mill and Saw Mill. Its location is one of the finest in the vicinity, near to and overlooking the Penobscot. The buildings, consisting of a two story House, with an L, and a large and commodious Barn, are nearly new, built in a most substantial manner, and supplied with all the modern improvements.

The Farm consists of Forty Acres, all of which, except a small Wood Lot, is under a high state of cultivation. It cuts about 25 tons of hay per year. For further information, call on the subscriber, at the premises.

The peculiar taint or infection which we call Scrofula lurks in the constitutions of multitudes of men, either produced by or inherited from, tainted parents. Scrofula, vitiated humors of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks; in the lungs, Scrofula produces tubercles and finally Consumption; in the glands, swellings which suppurate and become virulent sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, and all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With the blood, foul, or corrupted blood, you cannot have health, with that "life of the flesh" impure, you cannot have scrofulous disease.

### Ayer's Sarsaparilla

Is compounded from the most effectual antidotes that medical science has discovered for the fulfilling distemper, and for the cure of the other ills it entails. That it is far superior to any other remedy yet devised, is known if all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is conclusively proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole catalogue of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made within all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who will speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it is valid to hasten, and does greatly shorten, the average duration of human life. The widespread influence of these considerations has led us to spend years in perfecting a remedy which is decisive to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best *Sarsaparilla* in alterative power. By its use you may protect yourself from the suffering and anger of those disorders. Purge out the foul corruptions that rot and fester the blood, purge out the causes of disease, and vigorous health will follow. By its powerful virtues this remedy stimulates the vital functions and thus expels the distempers which lurk within the system or burst out in any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

## CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dr. J. C. AYER & Co., *Practical and Analytical Chemists*, Lowell, Mass.

Sold by all druggists every where.

## Vegetable Pulmonary Balsam,

which has sustained its high reputation for nearly FORTY YEARS, and is recommended by many of the most eminent physicians and gentlemen in the country, among whom are Rev. Josiah Litch, Philadelphia; Rev. Dr. Lyman Beecher, New York, the late Prof. Leonard Woods, Andover Theological Seminary; D. P. Thompson, formerly Secretary of State, Va.; Drs. Merrill, Perry, Abell, Parker, Berry, and many others; by the Press, and by the largest and oldest dealers in drugs and medicines in the United States and Canada.

OPINIONS OF THE TRADE.—We know of no medicine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it."

[signed by many of the oldest and most respectable druggists in the United States.]

Extracts from letters received from Physicians

"I with confidence recommend it as superior to any other preparation for the above complaints."—"It has a superiority over every kind of medicine used, and has been used for lung complaints with wonderful success."—"I am satisfied it is a valuable medicine."—"It is safe, convenient, and very efficacious medicine."—"To my knowledge, it has never disappointed the reasonable expectations of those who have used it."—"I can confidently recommend it as in all cases where the chest, as usual, is not superior, than any other medicine within my knowledge."—"Of all the principal remedies used for coughs, I am satisfied yours is the best, and hope it will be better known and more generally used."—"I have prescribed your balsam, and regard it as the most valuable and effective remedy within my knowledge."

Extract of a letter just received from a gentleman, ordering some of the Balsam.

"Mackinaw, Green Lake Co., Wisconsin, Dec 12, 1862. Messrs. Reed, Cutler & Co.—Gentlemen: For the twenty years I have used your Vegetable Pulmonary Balsam in my family, but more particularly for myself. When I first used it I was given up by physicians as past cure of Consumption. I obtained immediate help. I have always kept it since, and consider it, for the lungs, the best medicine I ever used. I have recommended it in several cases, and in nearly every case it has proved beneficial.—I cured one lady after the doctors had pronounced her incurable. Respectfully yours, H. H. ROBINSON."

Price—Small size, 50 cents; large, $1. Be careful to get the genuine, which is prepared only by REED, CUTLER & CO., Boston, and sold by dealers generally. Dec 31—eodawly

## Frank in House,

Harlow Street, Bangor, Maine.

This well and favorably known Hotel, having the past season been enlarged, remodeled and refurnished has now all the appointments of a first class Hotel.

The subscribers having leased the above House for a term of years, and having had several years experience in the business, flatter themselves, by strict and personal attention, to merit a liberal share of public patronage.

In location this House has no superior, being in a central position, and on one of the pleasantest streets in the city. In connection is a large and commodious Stable, in the care of attentive Ostlers, also, a Livery Stable, which will always be supplied with first class teams.

Stages leave this House, daily, for all parts of the country. McLAUGHLIN & SON.

## NATIONAL HOUSE,

CORNER OF
HARLOW AND FRANKLIN STREETS,
BANGOR, MAINE

ISRAEL B. NORCROSS, Proprietor.

This Public House has been renovated and put in first rate order, newly painted, papered, and furnished throughout; and is now prepared to render it rendered convenient and comfortable for transient company and boarders.

The House has a central location, and an excellent Stable attached, attended by a faithful ostler.

The proprietor hopes, by an earnest endeavor to promote the comfort of his guests to merit a fair share of public patronage.

## WORLD'S HAIR RESTORER AND ZYLOBALSAMUM?

Convincing Testimony.

REV. C. A. BICKNELL,
*Advance Preacher American Sick House, N. Y. City*, writes: "I very cheerfully add my testimony to that of numerous friends to the great value of Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum."

Rev. WM. CUTTER, N. Y. City: "My hair is changed to its natural color, and growing on bald spots."

Rev. J. H. CORNELL, N. Y. City: "I procured it for a relative. The falling of the hair stopped, and restored it from being grey to its natural and beautiful color."

Rev. J. WEST, Brooklyn, L. I.: "I will testify to the value in the most liberal sense. They have restored my hair when it was bald, and where it is to its original color."

Rev. A. WEBSTER, Boston, Mass.: "I have used them with great effect. I am now neither bald nor grey. My hair was dry and brittle, it is now soft as in youth."

Rev. H. V. DEGEN, Boston, Mass.: "That they promote the growth of the hair where baldness is, I have the evidence of my own eyes."

## HOMESTEAD TONIC,

LET our possessions be what they may—[illegible] ble palaces, broad lands, magnificent plate or caskets of "precious stones"—they all sink in the balance as against Heaven's great boon HEALTH, and they cannot be enjoyed without it. The language of [illegible] ever, would enjoy the pleasures of [illegible] ties of flowers and landscapes, the joys of companionship, the richness of literature, or the honors of station and renown, must preserve *their health*. And yet how little is valued [illegible] now carelessly preserved. The stomach [illegible] receptacle of all nourishment, and the [illegible] from which all parts of the body derive [illegible] tenance. When foul, injured or [illegible] stomach, acute sympathy [illegible] organs, and disease [illegible] follow. The laws of nature cannot be [illegible] with impunity. [illegible] irregularity of meals and [illegible] will speedily destroy [illegible] the stomach. How many [illegible] and drink disease [illegible] in the morning with [illegible] feeling jaded, miserable, [illegible] tired, with and incapable [illegible] tal or physical duty, and drink [illegible] beginning of that horrid disease,

DYSPEPSIA,

which assumes a thousand shapes [illegible] wards a *miserable life and premature death*. There can be no medicine [illegible] that will lead into food, or [illegible] digestion, but medical science can [illegible] ply exhausted fluids, and to a great extent, [illegible] rest the effects of disease, when the [illegible] abandoned.

The Medical Faculty has [illegible] for generations in creating appetite and [illegible] ming stomach derangements. [illegible] dients were well established as possessing [illegible] nical qualities, among these were Calisaya Bark and St. Croix Rum. But [illegible] ments were wanting [illegible] obtained. An inmate [illegible] the tropical island of [illegible] its of the plants and gathered [illegible] for the final accomplishment [illegible] ing, it is said. Its [illegible] compounded in the right [illegible] produced the effects [illegible] of the cause, the attention [illegible] as a private individual. Its [illegible] ry that it is now being [illegible] immense quantities under the [illegible] Plantation Bitters." They [illegible] They are with the greatest [illegible] taken by old or young, [illegible] erage. The sale of these Bitters [illegible] confined to our extreme Southern states, but they are now becoming well known throughout the world, and are recommended with the utmost confidence, for all complaints or ailments [illegible] disorganized or deranged stomach [illegible] pepsia, Liver Complaints, Nervous affections, Loss of Appetite, Intermittent Fevers, Diarrhœa, Sour Stomach, Headache, Fever and Ague, Weakness, &c.

As a morning appetizer and [illegible] they are held in high estimation, and [illegible] found upon the side board of every family [illegible] are also much used upon the [illegible] Scrofula, Rheumatism and Dropsy.

S—T—1860—X.

That you may be your own judge of the efficacy of these celebrated Bitters, we submit a [illegible] tial formula of the articles of which they are composed: **St. Croix Rum.** The tonic properties of pure St. Croix Rum are well known, and it has long been recommended by physicians. It is manufactured from the Sugar Cane Plant, and that we use is selected with great care from the estates of [illegible] planters in the interior of the island. **Calisaya, or King's Bark,** [illegible] known to civilization until the middle of the seventeenth century. The natives of Peru are especially supposed to have been [illegible] acquainted with its most wonderful medicinal qualities. Humboldt makes favorable mention of the febrifuge qualities of this article, as an antidote to Hyper and Ague, Intermittent, Malarious Fevers, in his extensive South American travels.

CASCARILLA BARK is another important ingredient. It was known in Germany as early as 1790, and much used as a substitute for Peruvian Syrup. It is employed as a gentle stimulant and tonic in Dyspepsia, Chronic Diarrhœa, Cholera, Dysentery, and Diseases of the stomach and bowels. DANDELION is used for [illegible] mation of the bowels and spleen, in case of [illegible] secretions and dropsical affections depending [illegible] obstructions of the abdominal viscera. [illegible] rangement of the digestive organs generally. CHAMOMILE FLOWERS used for [illegible] digestion and want of appetite. WINTERGREEN is a medicinal plant of rare [illegible] virtues, and is especially valuable in Scrofula, Rheumatism and Nervous affections. LAVENDER FLOWERS an aromatic stimulant and tonic, highly invigorating in nervous debility, generous to the palate and stomach. ANISE, an aromatic carminative, creating [illegible] and milk. Much used in nursing. [illegible]—X. Another ingredient of remarkable medicinal virtues, used in the preparation of these Bitters—is a native of Brazil and as well known to the commerce of the world. A Spanish writer says: "[illegible]—administered with St. Croix rum, it never fails to relieve Nervous tremor, Wakefulness, disturbed sleep, &c." and that it is used with great effect by the Brazilian Spanish and Peruvian Indies to heighten their color and beauty. It imparts cheerfulness to the disposition, and [illegible] to the complexion. We withhold its name from the public for the present.

To the above are added Clove buds, Orange, Cayenne, Coriander and Snake root. The whole is combined by a perfect chemical process, and under the immediate supervision of a skillful and scientific Pharmaceutist.

"Drake's Plantation Bitters," or "Old Homestead Tonic," are put up in Patent Bottles, representing a Swiss cottage and are an ornament to the side board.

Sea Sickness. Travellers by railroad or up the inland rivers where the great change of water is such a prolific cause of incipient disease like Bilious, Intermittent, Ague and Chill Fevers, may feel a certain reliance, if they protect themselves with these Bitters. The muddy water of the Western rivers, filled with decayed vegetable and animal matter, is quite sure to produce disease unless guarded by an antidote, such as is found in the Plantation Bitters.

WHAT IS SAID OF THE PLANTATION BITTERS.

"Philadelphia, 1st month, 16th day, 1862.

ESTEEMED FRIEND: Will thou send me another Case of thy Bitters? Nothing has proven so beneficial or agreeable to my invalid wife and myself, as the Plantation Bitters.

Thy Friend, ISAAC HOWLAND."

N. B.—The secret of the immense sale of the Plantation Bitters is, their tested purity. The St. Croix Rum and every article used, is warranted perfectly pure.

It is the intention of the Proprietors to sustain the reputation of this article upon its merit.

Be careful that every bottle bears the fac simile signature of the Proprietors, P. H. Drake & Co., New York.

Drake's PLANTATION BITTERS are sold by all Druggists, Grocers, Hotels and Restaurants.
